V Vishnupriya

Full Stack Developer

vishnupriyav1609@gmail.com +91-9337089803 Kovilpatti https://vishnupriyafullstack.vercel.app/

Skills

Languages

Javascript, Python

Frontend

React.js, Redux, HTML, CSS3, Tailwind CSS, Material UI, Bootstrap

Backend

Node.js, Django, Express.js, REST APIs, Flask

Database

PostgreSQL, MySQL, MongoDB, Supabase

Auth & Security

JWT, Role Based Access control

Tools & Deployement

Git, GitHub, Vite, Vercel, Railway, Render, Hostinger VPS, EmailJS

Education

Hindustan College of Engineering & Technology

ME • 82.5%

Applied Electronics Coimbatore

PSRR College of Engineering for Women

BE • 77.7%

Electronics & Communication

Sivakasi

Certifications

Full Stack Developer Certification

TN Skill Corporation

Languages

English, Tamil, Telugu, Hindi

Professional Summary

Motivated Full Stack Developer with hands-on experience in React.js, Node.js, Supabase, and n8n. Skilled in developing responsive web applications, backend APIs, and automated workflows. Passionate about delivering scalable, efficient, and user-friendly solutions in a collaborative environment.

Experience

Vsoft Solutions Thirunelveli

AI Full-Stack Intern Apr 2026 – Present

PROJECT EXPERIENCE

1. Construction Management ERP & CRM : Developed key modules for a Construction Management ERP & CRM system, focusing on customer onboarding, lead tracking, and business process management to improve operational efficiency.

2. VedaConnect – Women Entrepreneurs Networking Platform : Developed a responsive web platform using React.js to connect and support women entrepreneurs in the eco-friendly and herbal products industry, enabling networking and business collaboration.

3. VedaCraft – Seller Management Portal : Designed and developed a responsive seller portal to manage seller profiles, banking details, customer reviews, and promotional offers, ensuring seamless seller operations.

INTERNSHIP EXPERIENCE

- **Full-Stack & AI-Assisted Development:** Developed responsive web applications using React.js, Tailwind CSS, Node.js, and Supabase, leveraging AI tools for coding efficiency and integrating secure authentication and APIs.
- **AI & Workflow Automation:** Implemented n8n automation workflows to streamline business processes, integrate third-party services, and reduce manual tasks.
- **SDLC & Collaboration:** Contributed to application design, development, testing, and deployment in an Agile, AI-assisted environment, delivering scalable and maintainable solutions.

KIET College Odisha

Assistant Lecturer Jan 2019 – Aug 2019

Lectured diploma students, handled academic work and delivered training sessions, strengthening communication, mentoring, and presentation skills.

Strengths

- **Passionate about continuous learning in software development**
- **Effective team collaboration and communication skills**
- **Quick learner with adaptability to new technologies**

Academic Projects

Digital Exhibition Management System

Built using React.js, Django REST API, and PostgreSQL for complete exhibition registration, stall booking, and event management.
https://exposphere-seven.vercel.app/

Weather Application | Python Flask – Mini Project

Developed a web-based Weather Application using Python and Flask, integrating a REST API to fetch and display real-time weather information, including temperature, humidity, and weather conditions for user-selected locations.
