Certifications

Full Stack Developer Certification

TN Skill Corporation

Professional Summary

Results-driven Full Stack Developer with hands-on experience building scalable web applications using React, Node.js, Supabase, and n8n. Proven ability to engineer clean frontend interfaces, robust backend APIs, and automated workflows through key projects like a Construction Management CRM and an ecosystem platform for women entrepreneurs. Ready to deliver efficient, user-centric software solutions in a dynamic team.

Experience

Vsoft Solutions Thirunelveli

AI Full-Stack Intern Apr 2026 – Present

- **Architected and developed key modules for a Construction Management ERP CRM**, streamlining customer onboarding, lead tracking, and business management workflows to improve operational efficiency.
- **Engineered the VedaConnect platform**, building a responsive web ecosystem and networking forum using React to support women entrepreneurs in the eco-friendly herbal products industry.
- **Integrated Supabase and Node.js backend services** to handle real-time data synchronization, secure user authentication, and robust API endpoints across core internship projects.
- **Leveraged n8n workflow automation** to eliminate manual tasks, connect third-party services, and optimize data routing for client management systems.
- **Collaborated across the full software development lifecycle** in an agile, AI-driven environment—from initial layout design to deployment—delivering scalable, maintainable, and user-centric web applications.

KIET College Odisha

Assistant Lecturer Jan 2019 to Aug 2019

Lectured diploma students, handled academic work and delivered training sessions, strengthening communication, mentoring, and presentation skills.

Languages

English, Tamil, Telugu, Hindi

Strengths

- **Passionate about continuous learning in software development**
- **Effective team collaboration and communication skills**
- **Quick learner with adaptability to new technologies**

Academic Projects

Portfolio Website

Developed a modern personal portfolio using HTML, CSS, JavaScript, and Bootstrap. Designed clean UI layouts with Figma and implemented responsive components.

Digital Exhibition Management System

Built using React.js, Django REST API, and PostgreSQL for complete exhibition registration, stall booking, and event management.

Academic Achievements

- **Presented papers at IEEE, national, and state-level conferences**
- **Won prizes in hackathons, technical competitions, and youth events**
- **Actively participated in paper presentations and project expos.**
